HARDING SEEKS TO 'GET OUT' OF GENOA CONFERENCE

WASHINGTON, Jan. 28.—President Harding and his advisers are seeking a way to "get from under" the proposed Genoa economic conference without offending either the Italian government, which issued the invitations, or the British government, the parley's principal sponsor. ENDURING

-To 'my mind, the main purpose in life is the building of character W. A. Roberts of 717 East Windand the preparation for that larger "after" life which will endure forever. So, I believe in the Church and every institution which stands for the higher things.

> -In a material way, however, there is an institution which is very closely allied to the Church and which does a work of protection and conservation for mankind which can be done IN NO OTHER WAY. Of course I refer to Life Insurance, especially in its endowment and income forms.

-Every other method of protection through investment is subject depreciation and marked shrinkage. 87.3 per cent of all property left at death is Life Insurance. There is no substitution.

You can safely judge a city, state or nation by its homes, because distinctive, well planned homes reflect the spirit, pride, prosperity and permanence of its people.

—Whenever you see a community of home-owning citizens where pride is taken in keeping all improvements in perfect repair, well painted, with surroundings attractively landscaped, lawns, flowers, trees and shrubbery, a longing comes to you to become one of them. You know from experience that complete harmony exists in such a community, and that there is a unity of thought for general civic attractiveness, high moral codes and progressiveness that builds not only ideal homes, but modern churches, schools, public buildings, etc., making that city or town an ideal place in which to live. Self-ishness is a forgotten thought—co-operation is their motto, where all place their moral and financial support back of projects to make them a reality.

—On the other hand, slow, dormant towns equally show the non-progressiveness of its people because the conditions of a community simply reflect desires and ambition that dominates, and this brings to mind a truth penned by W. T. Dennison:

IT ISN'T YOUR TOWN-IT'S YOU

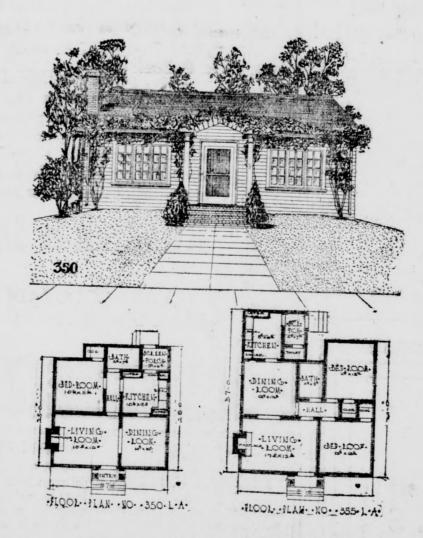

If you want to live in the kind of a town
Like the kind of a town you like,
You needn't slip your clothes in a grip
And start on a long, long hike.

You'll find elsewhere what you left behind, For there's nothing that's really new, It's a knock at yourself when you knock your town,

For it isn't your town—it's you.

Real towns are not made by men afraid Lest somebody else gets ahead; When everyone works and nobody shirks You can raise a town from the dead.

And if, while you make your personal stake, Your neighbor can make his, too; Your town will be what you want it to be, For it isn't your town—it's you.

THIS attractive, pleasing little home with its alternate floor plans, showing ideal arrangements and modern conveniences, will make its appeal, and if there is additional information that you will care to secure please feel at liberty to write the Home Building Editor, care this paper, and your inquiry will be given immediate attention.

It is understood, however, that proceeding with Britain is plans to answer the objections of the United States and try to overcome them so that the conference can go ahead as planned with Washington represented.

As to America's opposition to so-viet Russia having representation at Genoa, it was pointed out by British officials that the United States has already "given theoretical commercial recognition of the soviet." The officials said if America gave "tactical political recognition" it would be possible to secure a reduction of the Russian army and make economic advances in eastern Europe.

Five Varied Acts of Vaudeville Offered at Glendale Theatre

Five acts of distinct diversity will be included on the vaudeville bill at the Glendale theatre today. Samson and Paulette who style themselves, "The Baritone and The Dancer',' have a dainty, delightful offering. The Cooke sisters will present a singing, dancing and pianologue. These girls have plenty of personality which has won them high praises everywhere.

Bill Pruitt, "The Cowboy Minstrel" will sing songs and tell quaint Starr and Starr are an eccentric comedy duo that plenty of hearty laughs. Wright and Vivian, "acrobatic jugglers" will inject a few thrills into the show as well as a few laughs.

Winsome Elaine Hammerstein will appear in what is said to be the most dramatic role of her entire career. The story in brief, relates to a strange wager made between Evelyn Whitney, a gilded society butterfly, and Mary Malone a destitute girl who is on the point of starvation. The woman of wealth claims that she can start from exactly the position the other woman is in and maintain herself for two months. The out-come of it all is shown in a series of very dramatic scenes and the final climax is both original and surpris-
